

PROMOTIE

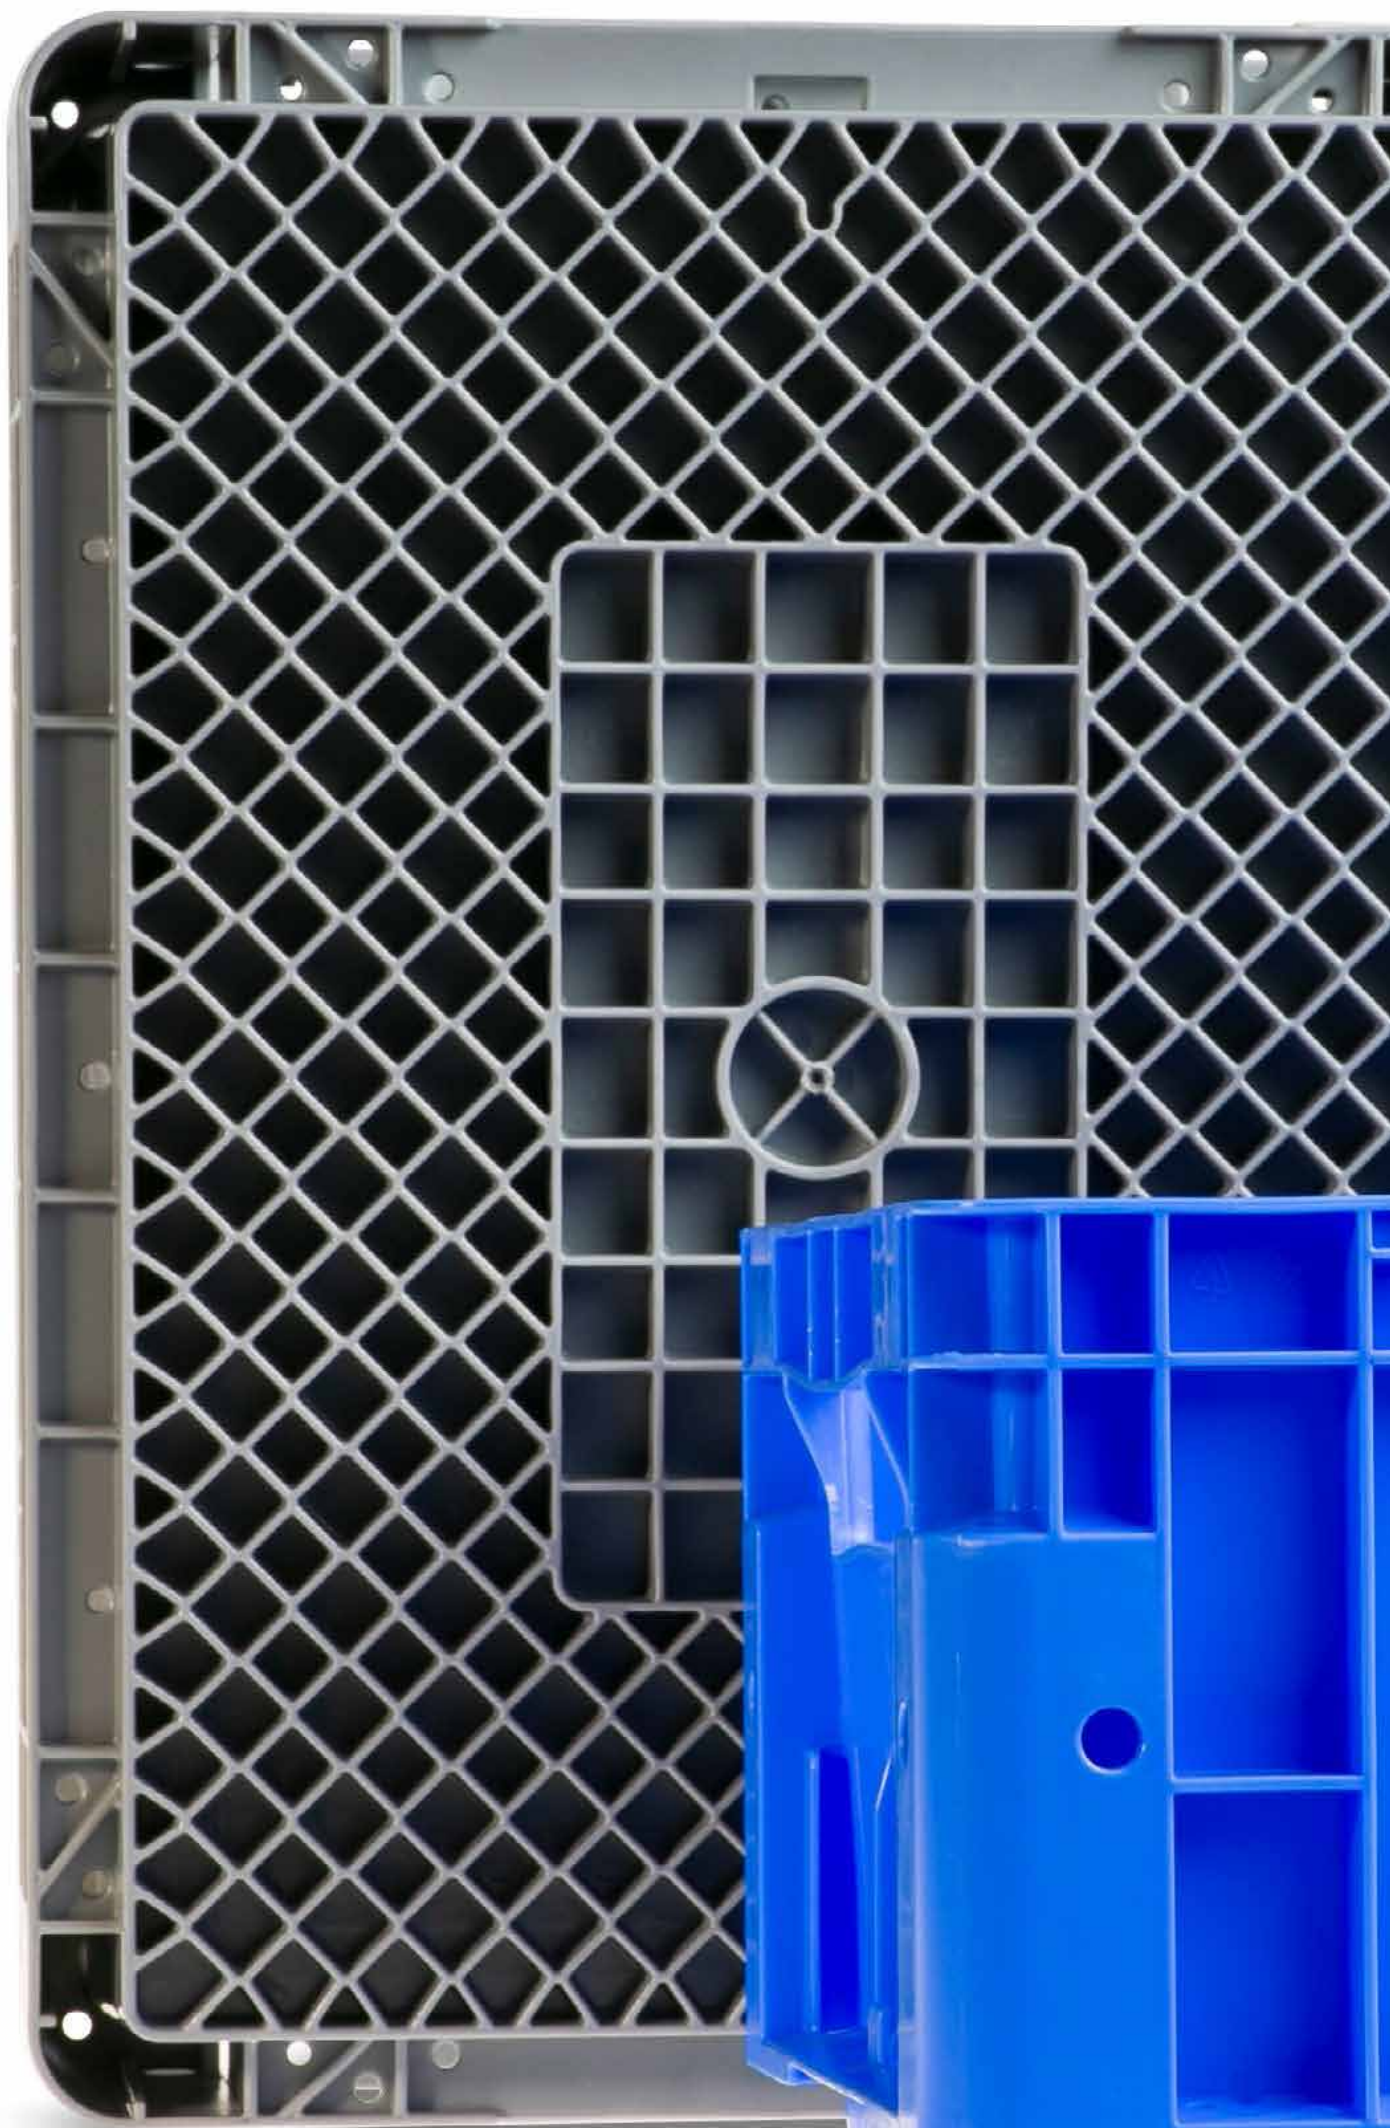

valabila pana la: 31.10. 2021

EXPERTUL DUMNEAVOASTRA IN TEHNICA PENTRU DEPOZITARE

PROMO20210831

Preturile sunt Fanco Beneficiar si sunt exprimate in euro fara TVA. Promotie valabila pana la 31.10. 2021 Promotia se desfasoara in limita stocului disponibil. Nu se accepta planificarea datei de livrare, cumularea ofertelor cu alte oferte speciale, anularea, schimbarea sau returnarea comenzii. Pentru informatii suplimentare va rugam contactati: marketing@cobotec.ro sau reprezentantul dvs zonal Cobotec. Ne rezervam dreptul de a efectua modificari de orice fel in cuprinsul promotiei. Imagini si detalii tehnice cu titlu orientativ.

TEKNO

NOUTATI 2021

TEKNO este o gama fabricata cu cea mai noua tehnologie de turnare a materialelor plastice, tehnologie ce permite realizarea unor cutii cu o structura extrem de rezistenta pentru o durabilitate imbunatatita si un design perfect adaptat pentru multiple utilizari.

Gama TEKNO cu cele 11 versiuni disponibile este rezultatul unei experiente de 15 ani in proiectarea cutiilor pentru logistica. Gama este creata cu dimensiunile standard Euro, putand fi utilizate pentru orice tip de manipulare, de la transportor automat cu role pana la roboti antropomorfi.

Prin constructia optimizata a manerelor, gama TEKNO, confera operatorului un nivel ridicat de confort si siguranta la aderenta in timpul manipularii manuale chiar si atunci cand cutia este in sarcina completa.

TEKNO este disponibil in doua versiuni diferite, cu baza inchisa si ranforsata. Cea ranforsata are o capacitate de incarcare de 50 kg si o deviere in sarcina completa mai mica de 5 mm, conform testelor efectuate in conformitate cu UNI EN13117-2: 2000. Culorile disponibile: gri 01 si albastru 04, accentueaza si mai mult structura TEKNO.

Fiecare model este livrat cu manere deschise, mai putin modelele de 75 si 120 mm intaltime, care sunt disponibile numai cu manere inchise. O pereche de capace de inchidere a manerelor se afla in interiorul fiecarui pachet si pot fi aplicate foarte usor in orice moment, facand cutiile TEKNO foarte flexibile pentru necesitatile operationale viitoare si reducand stocul de depozit cu 50%. Pentru culori diferite de cele standard, sunt necesare minimum 2.000 de bucati, iar termenul de livrare este de 6 saptamani.

DISPONIBIL CU:

ATHENA

POLYPROPYLENE

Datorita varietatii de materiale utilizate si a dimensiunilor acestora, cutiile Athena pot fi utilizate in toate sectoarele de activitate si indeplinesc in mod optim cerintele de depozitare si distributie.

Stivuibile cu sau fara capac, cutiile Athena respecta standardele Euro pentru paleti.

In timpul folosirii cu capac, este posibil sa inchideti cutia cu sigilii de unica folosinta care pot fi, de asemenea, personalizate, aplicate pe capacul cu clape si pe mecanismul de deschidere positionat pe cele doua laturi scurte ale cutiei.

Cutiile gamei Delta au o structura conica trunchiata, permitand stivuirea stabila si sigura la incarcarea completa. Cand sunt goale, acestea pot fi introduse una in cealalta, rezultand o reducere de 70% a volumului.
